“Logos Culture and Characteristics” Survey

Dear parents and students,

After the first meeting of the Principal Selection Committee held on 25th of November, the screening and selection work of the new principal has successfully commenced. Thank you very much for all your concern, queries, suggestions and support!

To more effectively organize a brief of the Culture and the Characteristics of Logos Academy, with the assistance of another parent, I have prepared a very simple survey called “Logos Culture and Characteristics”. The design of the survey is based on the Academy’s vision and mission, and the values we treasure very much as well as the opinions collected through various channels. In the process of preparing the survey, I found that the core values we treasure most aligned with the Academy’s vision and mission, and how they are realized in actual daily school life and teaching and learning.

I sincerely invite all of you to fill in the online survey with the link below, on or before noon, 8th December 2011.

<https://sites.google.com/site/laprwg/>

Each current student of the Academy and his/her two parents may fill in the survey once each. For parents with more than one children studying in the Academy, they should only fill in the survey once each, with the student ID (can be found on the student ID card) of their elder/eldest child currently studying in the Academy as an authentication.

Data collected will be handled and processed directly by myself and another parent by the principle of non-attributed information. After organizing the data, we will prepare a brief presentation of the results for the Principal Selection Committee’s reference. The presentation brief will also be available to all of you in due course. To avoid any misunderstandings, this survey will only focus on finding out the common values among students and parents, and will not comment on current or past school policies. Please do support us!

Thank you for your cooperation!

Parent Member, Principal Selection Committee
Tony Lau
