An 11-year quality through - train education

**The fear of the Lord is the beginning of wisdom,
and knowledge of the Holy One is understanding.**

(Proverbs 9:10)

“

Logos Academy is rooted in the biblical truth and commits in a global educational perspective. It embraces an 11-year “through-train” model for primary and secondary education under one school leadership and a unified belief.

We firmly believe that the heart of education is the education of the heart. Logos Academy is dedicated to helping our future generations pursue a fulfilling life grounded in truth, goodness and beauty.

Our caring school environment is set to facilitate effective and pleasurable learning and nurture the ability to inquire, reason, self-learn and solve problems in facing challenges of life.

”

AN 11-YEAR THROUGH-TRAIN EDUCATION

FOUNDATION STAGE

2 Years

P.1 - P.2

FOCUSES

Cultivating motivation and enjoyment in learning while building knowledge and foundational skills.

KEY FEATURES

Developing multiple intelligences, such as linguistic, logical-mathematical, and musical.

Promoting integration of knowledge and experiences through thematic activities.

DEVELOPMENT STAGE

5 Years

P.3 - S.2

FOCUSES

Strengthening abilities for lifelong learning and preparing for pre-senior level studies.

KEY FEATURES

Providing frequent experiential learning opportunities, including field trips and overseas study tours.

Helping students acquire confidence through participation in STEAM activities, debates, public speaking, dancing, photography, musical, and theatrical performances.

MASTERY STAGE

4 Years

S.3 - S.6
IBDP / HKDSE

FOCUSES

Preparing for university admission and developing leadership skills.

KEY FEATURES

Offering both IBDP and HKDSE curricula in parallel for students to realise their full potential in their final two years.

Providing students with ample opportunities to become leaders of clubs, teams, societies, and the Student Union.

One of the Top 20 IB Schools in the World

IBDP Results (2020-2025 Average)

CAREER & LIFE PLANNING

Our CLP team guides students through an 11-year journey, with a distinct focus at each stage. A large team of dedicated teachers supports students to progressively explore their talents and interests through job-shadowing, workshops and field visits. Senior students take part in interview workshops led by parent volunteers and alumni, all of whom are professionals sharing real-world perspectives and practical advice.

Logos on Stage

Australia Study Tour

Students thrive in our English-rich environment, building strong foundations through lessons and sharpening their voice in drama, debate, and public speaking. They refine and showcase their English skills in territory-wide competitions, from debate matches and the Hong Kong School Drama Festival to Model United Nations (MUN).

Each summer, junior secondary students take learning beyond the classroom on a two-week Australia study tour—using English in real-life contexts, experiencing vibrant local cultures, and forming lasting friendships with peers at a partner school.

L-E-A-P

OUR UNIQUE TRANSDISCIPLINARY PROGRAMME

LEAP is Logos' transdisciplinary programme where subject departments deliver hands-on and project-based STEAM modules.

Nine subject departments teach P3 students about responsible water usage and conservation, including studying the water cycle (Science), creating a water-saving timer (ICT), and comparing resources then and now (Social Studies).

Secondary students explore 6 different modules (shown below). Our teachers co-design materials and co-teach with industry professionals, and our modules are regularly updated to meet evolving societal and industry needs.

Learn core knowledge in different modules.

Experiment with ideas in hands-on projects.

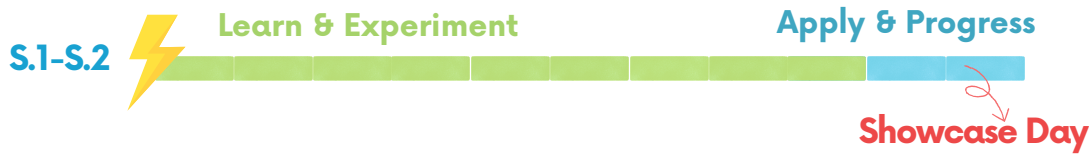

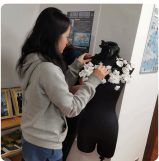

Apply skills in authentic tasks such as building AR apps, running food-science labs and practising budgeting.

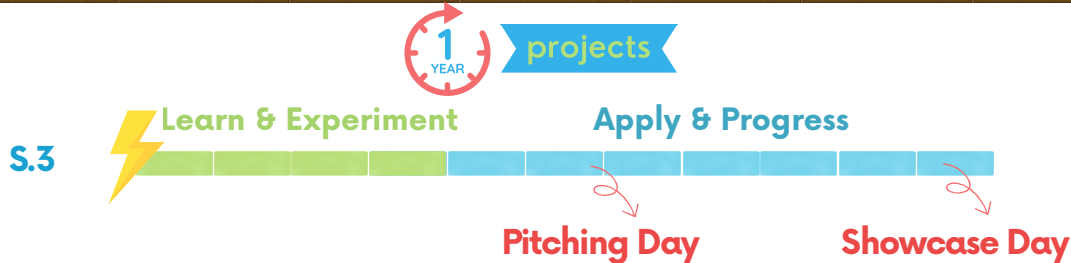

Progress through structured feedback and present ideas to experts on Pitching Day in preparation for Showcase Day.

How does L-E-A-P work in the Secondary Division?

S.1-S.2 students take all 6 different modules

S.3 students take 1 of the 7 modules and complete a year-long project

What do we aim to achieve through L-E-A-P?

- Provide **transdisciplinary learning** that mirrors today's creative and technical workplaces.
- Offer **hands-on experiences** that build practical skills and strong professional portfolios.
- Ensure every student can showcase their work during an **inclusive, supportive** Showcase Day.
- **Serve the community** by helping students apply their skills and talents.

SHOWCASE DAY

A DAY OF PROJECTS WITH PRIDE

Students take pride in their learning on Showcase Day, an annual celebration of creativity at Logos. Junior students present projects developed from classroom learning, while senior students pursue independent inquiries. On the day, students confidently share their work with parents, teachers, peers, and guests.

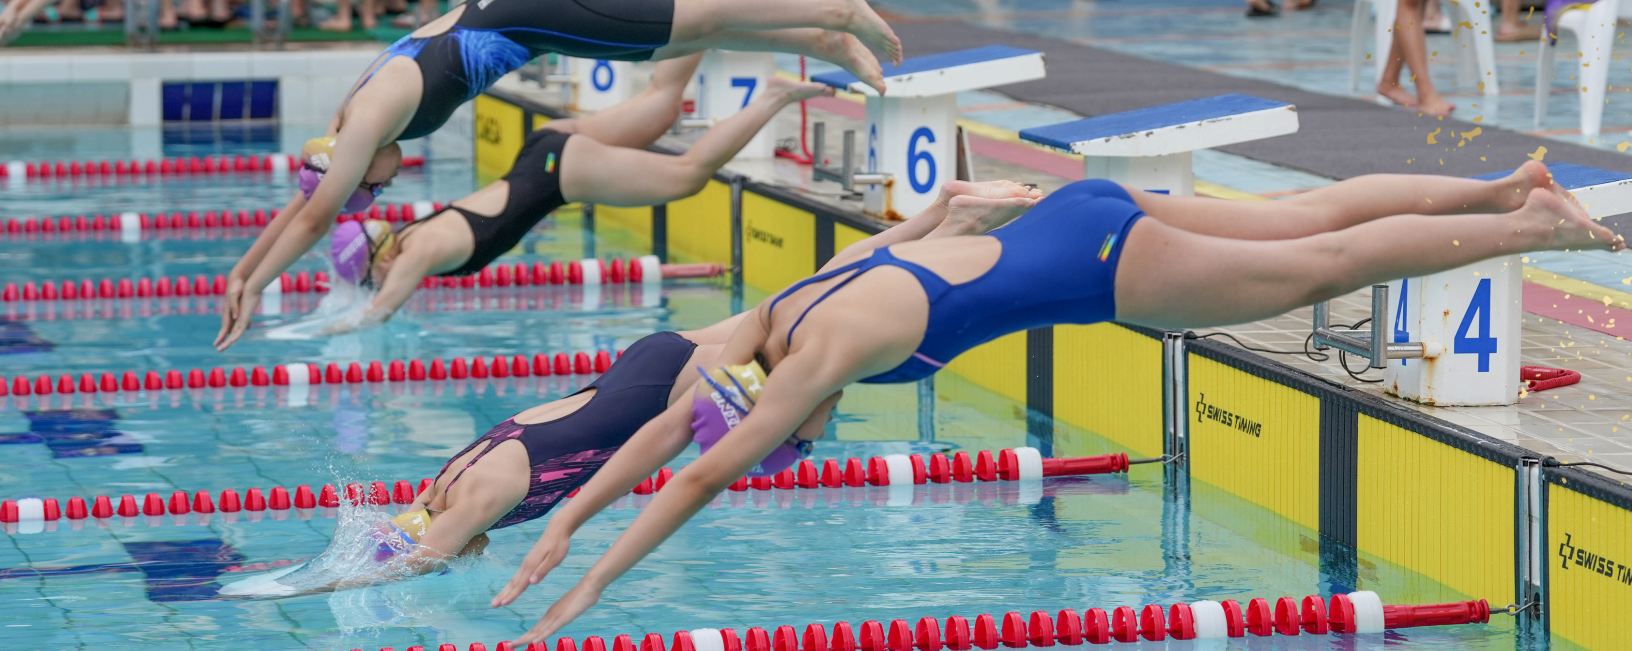

MUSICAL STARS IN THE SPOTLIGHT

Music thrives at Logos, where students explore a wide range of instruments and musical styles while enjoying frequent performance opportunities. Our flagship Annual Music Concert brings the whole school together, showcasing vibrant performances that span genres, traditions, and cultures. Through ensemble and solo pieces, students grow in confidence, creativity, and artistic expression.

Annual Swimming Gala

SPORTS CHAMPIONS TRAINED HERE

Students develop their athletic potential through a wide range of sporting opportunities across more than 20 teams, guided by experienced coaches. Purpose-built facilities, including our on-campus indoor swimming pool and gymnasium, support year-round training and help students perform at their best in inter-school competitions and beyond.

REC

SNAP, SHARE, AND SHINE ANNUAL PHOTOGRAPHY EXHIBITION

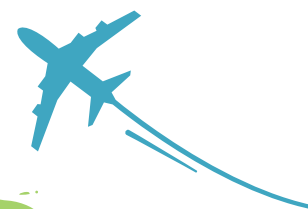

Students capture the world through fresh perspectives in our Annual Photography Exhibition, held each year with a unique theme. Featuring original works by students and teachers, the exhibition celebrates Logosians' creativity, artistic expression, and love for nature.

INTERNATIONAL EXPOSURE

Our Destinations

860 students joined our
study tours in
2023/24 and 2024/25

Students broaden their horizons through 8–10 overseas study tours each year—spanning Asia, Europe, and beyond—gaining first-hand cultural insights and real-world learning experiences. Many tours are subject-specific, allowing students to deepen their knowledge in authentic contexts beyond the classroom. These immersive experiences help students build confidence, independence, and global awareness.

LOGOSIANS ARE SERVANT LEADERS

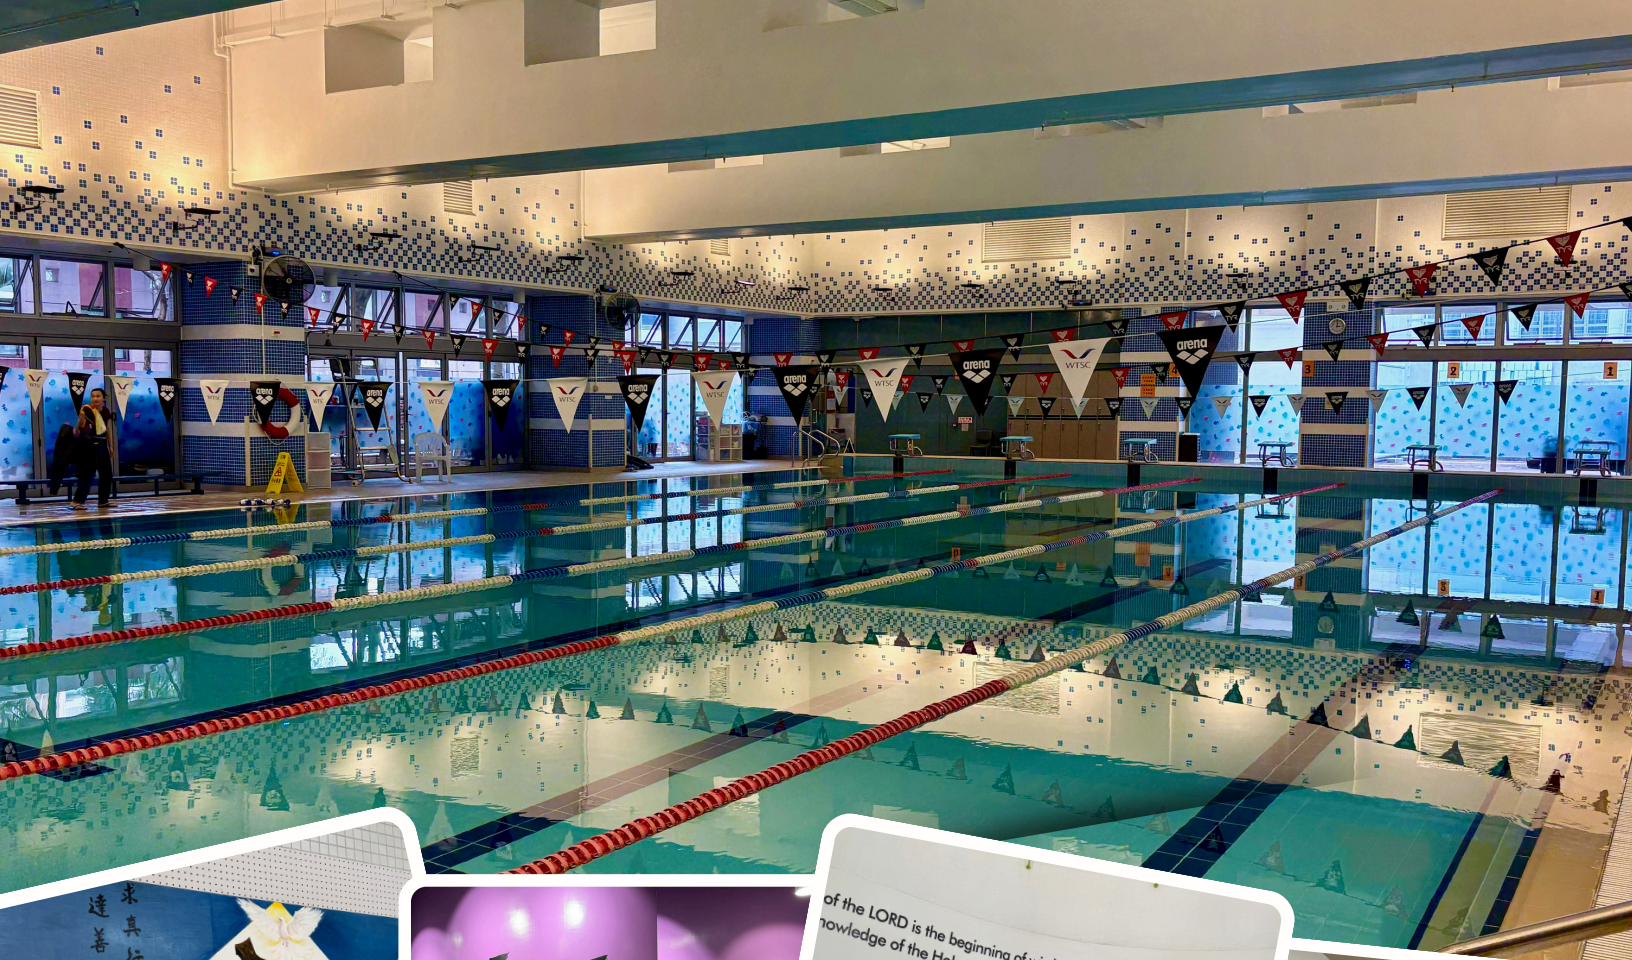

Students grow into servant leaders through a structured two-year Service-Learning Programme in S.2 and S.3, engaging in meaningful service for the elderly, individuals with visual impairments, and other communities in need. As they progress, they take increasing ownership, planning and leading initiatives in partnership with NGOs and community organisations.

Through experiences such as the IBDP CAS service trip to Southeast Asia, students contribute to real-world projects while building global awareness and cross-cultural understanding. Upon graduation, Logosians carry these values forward, continuing to act as servant leaders and making a positive impact in their communities.
