The HKCCCU Logos Academy
English Department
Plans on Using the English Language Grant by EDB in the School Year 2025/26

Implementation Plan	Target students & details	Expected outcomes	Time	Cost
1. Subscribing to an AI-Powered Writing/Marking Platform The platform uses AI to mark student writing and generates detailed feedback in various aspects (such as content and language). It also provides personalized language exercises for consolidation purposes.	**DS1 – DS3** • Teachers will incorporate the use of this platform in students' regular compositions throughout the school year. Students will receive feedback generated by the platform and previewed by their English teachers.	• Students will benefit from more timely feedback on their writing and personalized language exercises after each writing task. • Students will be encouraged to develop their self-directed learning capabilities.	Throughout the school year in every school term	HK$ 45,800
	MS3 – MS4 • Teachers will incorporate the use of this platform in students' regular compositions throughout the school year. Students will receive feedback generated by the platform and previewed by their English teachers. • MS4 students will use the platform to practice writing skills by doing extra writing exercises on their own.		Throughout the school year in every school term	HK$ 21,000
2. Subscribing to an online English learning programme ("English Builder", or "EB") The platform delivers weekly lessons in reading and listening, using authentic reading and audio texts that expose students to a range of global issues.	**DS4 – DS5** • Students will complete weekly online lessons on this platform, practicing their language skills while learning and exploring a wide range of global issues. Students can also choose to complete additional lessons whose topics match their own interests.	• Students will benefit from additional input in reading and writing and have additional exposure to different global issues. • Students will be encouraged to develop their self-directed learning capabilities.	Throughout the school year in every school term	HK$ 25,000
				Total amount: HK$91,800
