

2021 IBDP Examination Results

As a school committed to providing a quality eleven-year “through-train” primary and secondary education, we are very proud of our IB graduates who have been striving to become inquiring, knowledgeable and caring individuals. Through a rigorous and holistic curriculum that embodies intercultural understanding and respect, our students have been pursuing their life goals built on truth, benevolence and beauty. Their growth has been well observed in spiritual, moral, cognitive, aesthetic, physical and social aspects.

This year, while COVID-19 has continued to take its toll on the city’s overall educational landscape, we are grateful that the school has been in a more competent and ready position to cope with disruptions through better implementing online learning and encouraging self-directed learning on students’ part. Despite the many challenges that students have faced and will likely continue to face, they have braved obstacles big and small with unqualified determination and stamina, and have – in the presence of their supportive teachers and parents – eventually produced the following IBDP results which we are very proud to announce:

2021 IBDP Examination Results (ninth Cohort of IB Students)

	Candidates: 47	
45 points	4	38.3%
44 points or above	12	
43 points or above	18	
40 points or above	70.2%	
Mean Score	40.6	
Percentage of attaining Bilingual Diploma	100%	

We are particularly pleased that 4 graduates of this cohort have attained the full mark (namely, 45/45 points).

Despite their relatively young age (they have spent only 11 years in their primary and secondary education), they have attained very pleasing results in this competitive internationally-recognized examination.

We extend our most heartfelt congratulations to all our IB graduates. We have every confidence that they will continue to thrive in their own chosen disciplines when they embark on the next stage of education.

2021 Hong Kong Diploma of Secondary Education Results

Logos Academy offers a coherent and challenging through-train integrated primary-secondary education programme lasting for eleven years, one year shorter than the standard Hong Kong curriculum used by other schools. In the last two years of our programme, students may follow the local HKDSE Curriculum or the international IB Diploma Curriculum.

Over the past two school-years, our students showed their determination in keeping their fighting spirit and learning schedule by tackling unprecedented challenges posted by the Covid-19 pandemic. Classmates and teachers alike took extra effort to work together as a team and provide unwavering mutual support. Their perseverance was rewarded with fine results in the HKDSE:

Student Performance	Logos Academy	HK Average
Attaining grades of 3322 or above in core subjects	53.6%	42.3%
Attaining grades of 3322 or above in core subjects plus grade 3 or above in at least 2 elective subjects	47.8%	35.5%

Our overall passing rate (Level 2 or above) is 97%. The passing rates for all our subjects are above those of the Hong Kong averages. In particular, 100% of our students attain Level 3 or above in the following subjects: Chemistry, History, ICT, Music, Visual Arts and Mathematics Module 1. Subjects with over 90% attainment of Level 3 or above include English Language and BAFS. Subjects with over 80% attainment of Level 3 or above include Chinese History and Mathematics (core part). Subjects with over 70% attainment of Level 3 or above include Physics, Biology, Geography and Liberal Studies.
